Subject: Re: Notice re. FSS IP Auction Bid Form & Process

Paula, in response to your request for clarification, and to provide the same information to all bidders, in accordance with the instructions in the latest bid form, we encourage bidders that all non-cash components be sufficiently specific for the Trustee to evaluate under his business judgment and the authority granted to him by the Winddown Order. Such requested specificity is necessary for the Trustee to assess, amongst other things, the costs and fees associated with the implied overall value of a bid and the effects on the estate and its creditors.

If you feel that attaching a document further explaining your bid is helpful, please do so.

Jeff Tanenbaum, CAI
President

Thanks Jeff
3:40ET or after 4:30pm. We would like to ensure your understanding of the bid waiver - in light of our previous discussion and your instructions to omit a supplemental bid letter.

Thank you.
